

Introduction

This document includes the changes that are being implemented in the 2.5.05 release of ZooEasy. For each change, the number of the wish or incident is shown, as is also used in communication with end users, the description and consequences for use.

Changes

No.	Description	Consequences for use
456	Do not show the drop-down menus language and change of administration and also do not display the logout link. This prevents users from accidentally clicking on this and unintentionally logging out.	This prevents users from accidentally clicking on it and unintentionally logging out.
590	At logon, check whether the browser's pop-up blocker is on. If this is the case, then report this.	<p>When opening ZooEasy Online, a notification window is displayed in the event that:</p> <ul style="list-style-type: none">• a popup blocker is active, which blocks a dialog.• we have important notifications to all users, for example about scheduled maintenance of the database. <p>The subject of each message is given in the window. The entire message is displayed by holding the mouse pointer on top of it.</p>
653	Adjust general conditions with the following conditions: 1. Renewal of a subscription starting from the end date. So even if a renewal has been made after the end date, the subscription will be extended from the end date. 2. Users of a Forever free subscription who do not log in for 6 months clean up the administration. 3. Clean up subscriptions if a user has not logged in for 12 months.	N.A.

ZooEasy Online release notes 2.5.05

657	Show Help buttons in each menu. When clicked on one, the Support page of the ZooEasy website is immediately displayed and filtered by the correct category. In other words the user will then see all videos that apply to that menu.	The user will then see all videos that apply to the menu item. This can be turned off for all users via the Administration, Settings menu.
663	Apply Processing conditions v1.01 GDPR	The old version was still a processing agreement, the v1.01 are processing conditions that can be accepted.
668	Easily select animals from the list of animals within the pedigree to quickly enter missing ancestors.	This makes it easier to add missing animals to the pedigree.
671	Searching where the euro sign is used gives inconsistent error messages	Bug fixed
